**Manchester, M3 4JQ**

# OVERVIEW

---

The Health & Social Care Provider's Network is an alliance of health and social care organisations. We work together towards a commitment to share resources, encourage best practices, and ensure high standards of service to the end-users. Our network comprises of a wide range of health and social care providers in England and Wales, including care homes, domiciliary care organisations, supported living establishments, hospices, training companies, Health and social care consultancy companies, staffing agencies, accounts and financial institutions, IT and computing companies, social media and branding companies, housing and property developers and community care agencies. As a network, we recognise the importance of sharing resources and knowledge to deliver the highest standards of service to our clients. By working together, we can leverage our collective expertise to develop and implement best practices that improve the quality of services we provide. Our community comprises a lot of members that are in the health and social care industry. All these members provide different services that are vital in the industry including Domiciliary Care, Supported Living, Supported Accommodation, Children's Services and Recruitment Agencies.
